

Students and staff joined millions of people around the world with a 2 minute silence at the eleventh hour of the eleventh day of the eleventh month, to remember and honour those that paid the

price for our freedom. The weeks leading up to the Armistice Day staff and students purchased poppies and wore them with pride! There were lots of activities around school, including baking Poppy biscuits and readings during curriculum time.

A big thank you to Mr Stubbs and his form 16D! Continuing the great tradition of supporting BBC Children in Need students and staff at Queenscroft decided to support the event through the following activities: Staff and students were wearing something spotty in line with the theme "Big Spotacular"

At break time "Spotacular Cake Store" was held in the hall and a "Spotacular raffle" of a Pudsey Bear Cake took place during the week leading up to the 18th November. A colouring competition across the Key Stages was also held.

A prize was awarded to the spottiest outfit! This went to James Simpkins. The lucky recipient of the cake was Eddie Cooper for his winning ticket in the raffle.

The winners of the colouring competitions were:
In Key Stage 3 - Alana Fisher
In Key Stage 4 - James Corns

In Key Stage 5 - Amy Van Den Akker
In Complex Needs - Olivia Dickin

Mr Hawksworth the headteacher commented: "staff, student's families and carers made the

school proud, and that a wonderful day was had by all!"
The wonderful efforts of all concerned help raise £310.20!

A group of Post 16 have been helping different groups to make Lichfield a better place as part of their Duke of Edinburgh qualification and what fantastic work they have done so far.

Mr Huckfield our DoE teacher said "The entire students volunteering are enthusiastic about the different projects they got involved in and it is shown by their hard work helping the local community become a better place."

Some of our students volunteer at Christian Fields a local nature reserve, where they are in groups to litter pick around the site. They also get involved in maintaining the area by using different tools to clear bushes and over hanging trees, rake the twigs and make the walk paths clear of any weeds or dirt.

Another group of students are working alongside a Community Team to start the Canal Restoration. Working together they have started cutting down the trees and bushes, pulling out all the weeds and tidying which once was a canal. It's very exciting project as there are many different jobs the students will participate in throughout the year.

Various students are volunteering at Beacon Park and alongside the Park Rangers. The students are helping to get the gardens ready for the local community.

with the Post 16 groups and the work they have completed." Well done Post 16,

Mrs Edwards Head of Key Stage 5 said "All their hard work and maturity has been recognised by the different community workers from each project. They are all extremely impressed
