

Friday 18th November 2022

Dear Parents and Carers,

I was so proud of all our students last Friday. We held a number of different Remembrance Day events and all students were part of the two-minute silence at 11am. They were all so respectful and took the opportunity to reflect on those who have made sacrifices to keep us safe.

This window display was made by 7G and Mrs Roberts is particularly impressed that students did this all by themselves. Well done 7G!

Thank you for all your support for today's Children in Need events. There are some wonderful outfits in school today. This was our Senior Leadership Team meeting this morning! I'll let you know how much money we raise next week.

Thank you also for all your amazing support for our Harvest festival. The Food Bank informed us that we provided the equivalent of 297 meals for our local community. That will have made a real difference to some local families who need a bit of help at this point.

I understand that there have been some issues with parent parking in the nearby car-park. We are in contact with the people that manage this site and will update you as soon as possible. We were not aware that there was going to be any changes to their arrangements and we will try to find a way to work together with them. Those of you who drop off your children know that our own car park space is very limited and we are unable to give permission for any more parent cars to come on-site.

Yours sincerely

Dr Debbie Bailey
