

Friday 2<sup>nd</sup> December 2022

Dear Parents and Carers,

There has been lots happening in school this week.

### 1. Plans to re-start work experience placements.

During the pandemic, all our work experience placements had to stop. We are really excited that we can now plan for these to start again. Mr Huckfield is leading this work, together with Mrs Bradbury and they would both be interested to hear about any possible work experience placements.

A letter has already been sent to the parents of post 16 students and year 10. We hope that parents/carers are able to help their child find the right placement as they will have a good understanding of your child's interests and ambitions. If for any reason anyone is struggling to find a placement or needs any support, then please contact us.

### 2. Staff Café

There has to be some perks to this job!

Post 16 students are studying for their Hospitality and Catering qualification and have been practising running the Staff Café. Their efforts are much appreciated by staff!

### 3. Commando Joe

Students in 90 have enjoyed their Commando Joe lessons. These activities are designed to develop key character traits;

Resilience  
Empathy  
Self-Awareness  
Positivity  
Excellence  
Communicator  
Teamwork

Well done 90 – it's great to see you developing good peer relationships too.

### 4. Christmas Sale

## **5. Car Parking**

We know that there have been some difficulties with the car-park next to our school drive. We are very grateful for the intervention of Councillor Ray who has investigated this matter and he is still working to try and resolve the issue. Until you get further updates, please continue to follow current expectations. Thank you to the parents who contacted him. Please do let us know if there are any more problems and Councillor Ray is also happy for parents to contact him directly.

Paul Ray

Chadsmead Ward Councillor (Lib Dem)

Lichfield District Council
